

How to configure your EUROSTER SMART app?

EUROSTER SMART app is dedicated for the Euroster 0101 Smart thermostat.

Before you proceed with installation and configuration, please ensure your device is connected to your WiFi network (supports 2.4 GHz frequency).

Step by step instruction:

1. Install Euroster app through your Google Play or App Store.

2. After successful Euroster Smart app installation you have to create and register your account.

Click on Sign Up

- if it is your first time with Euroster, or
- go straight to Log In if you already have an account registered with Euroster.

3. Provide your:
 - Mobile number, or
 - Email address

and press Next

A screenshot of the Euroster SMART app sign-up screen. The screen has a red header with 'Back' and 'Sign Up' buttons. Below the header, there are two input fields: 'Country Code' with a dropdown menu showing '(AU) +61' and 'Phone/E-mail'. At the bottom, there is a 'Next' button.

- You will receive a verification code sent as a text message or through provided email address.

Please put it in and press OK

- Enter Password (come up with one) you will be using for your Euroster app log in account.

To be able to see typed password,

please press

After providing password, please press OK

- Allow Euroster Smart to access your device location.

- Follow instruction and go to NEXT page.

- Choose WiFi network & provide WiFi password. Press NEXT.

You may need to repeat Step 7 by pressing & holding

for 5 sec.

9. Your app will get into pairing mode with your WiFi modem and your thermostat.
It may take a few minutes.

If pairing mode is unsuccessful, please repeat pairing mode.

10. After pairing mode is completed the app will display the main screen.

11. From the main screen you can press Add Device, to add your room thermostat, by following displayed steps.

Once your thermostat is added, your Euroster app will display it in the main screen.

Congratulations! You can now control your home temperature through the app from anywhere!
